1) Statistical data are written in the summary. It must be removed.
2) Universities are not advertised in scientific articles. Science is universal. For this reason, the name "Makassar State University" should not be used in the article.
3) In the introduction part, theoretical bases and related research should be added.
4) The discussion should be written in a separate title. In the discussion part, it should be done in terms of similar and different results obtained by establishing a link with similar research results.
5) References should be written according to APA 7th Style. Useful link: https://owl.english.purdue.edu/owl/research_and_citation/apa_style/apa_formatting_and_style_guide/apa_changes_7th_edition.html
6) Most of the sources are ancient. Journal articles written after 2015 should be used more.
7) The article has spelling mistakes, grammatical mistakes, and sentence errors. Proofreading should be done.
