Dear Mr. Iskandar:

Manuscript ID GNOSI-4-108 entitled "The Quest for Teachers' perception and Implementation of Discovery Learning in Indonesian Senior High Schools" which you submitted to GNOSI, has been reviewed. The comments of the reviewer(s) are included at the bottom of this letter.

The reviewer(s) have recommended publication, but also suggest some minor revisions to your manuscript.

This research work has been approved for publication with a few minor adjustments in light of the reviews. Despite the fact that the literature offers sufficient information regarding Discovery Learning, the research problem, the theoretical development of the hypotheses, and the research's objective were not clearly stated. Additionally, the research questions should have been developed to determine whether or not the research objective was met.

Therefore, I invite you to respond to the reviewer(s)' comments and revise your manuscript.

Your amended manuscript should be posted as soon as you can because we're working to make it as easy as possible for papers submitted to GNOSI to be published on time. After obtaining this decision, try to submit the recommended adjustments as soon as possible. Please get in touch with the editorial office if that isn't possible so we can arrange an alternative deadline for you.

Sincerely,
Samuel Akpan Bassey
Managing Editor, GNOSI
