Reviewer B:

This paper already has novelty, but the contribution is not well illustrated. Improve sentence writing and title selection so that this manuscript has a good contribution. Improve introduction writing by using effective sentences. Writing introductions and paragraphs with efficient and effective sentences. The conclusion is still not effective and efficient, so in one paragraph it consists of 4-5 sentences. Suggest what gap analysis is based on accurate data. Improve references with primary references that match your research topic. Give a clear and strong purpose to the final sentence of the last paragraph Introduction.

In writing, there are still errors in making tables that are not in accordance with the latest journal template in 2021. Fix it by referring to the template. Also fix images with proper proportionality, legible size and good image quality (300 dpi). This improvement also includes how you display figures and tables properly and proportionally, for example only 3-4 images and 2-3 tables are displayed

Also fix images with proper proportionality, legible size and good image quality (300 dpi). This improvement also includes how you display figures and tables properly and proportionally, for example only 3-4 images and 2-3 tables are displayed.

Pay attention to how to write paragraphs properly and effectively. Do not use long and inefficient sentences, and in one paragraph only consisting of 5-8 sentences, because it can cause a loss of focus on the ideas you convey in that paragraph. Improve the writing of paragraphs in this paper.

Pay attention to how to write paragraphs, don't use 1-2 sentences in 1 paragraph. Make it a minimum of 4-8 paragraphs in 1 paragraph, so that in 1 paragraph there are good and effective ideas and explanations. Improve paragraph writing in this paper.

Please send back the revised paper.
