Journal of Applied Phycology

The paper has improved in general according to changes as requested by the reviewer. The different sections of the manuscript have been numbered. Materials and Method section was improved by adding a brief description of some methods. Statistical analysis has been added in the methods and results. The measured parameter and its unit on the ordinate axis have been added in the Figure 4. Some paragraphs were revised and rewritten in order to clarify them.

Reviewer #4: The authors' have sufficiently addressed my comments therefore I recommend to accept as is.

Dear Author,

We are pleased to inform you that your paper is nearing publication. You can help us facilitate quick publication by using our e.Proofing system. The system will show you an HTML version of the article that you can view/download a PDF version for your reference.

As you are reviewing the proofs, please keep in mind the following:

- This is the only set of proofs you will see prior to publication.
- Only errors introduced during production process or that directly compromise the scientific content will be corrected.
- Any changes that contradict journal style will not be made.
- Any changes to scientific content (including figures) will require editorial review and approval.

Please check the author/editor names very carefully to ensure correct spelling, correct sequence of names, and ensure that the given and family names have been correctly designated (NB the family name is highlighted in red in the proofs).

Please submit your corrections within 2 working days and make sure you fill out your response to the questions in the e.Proofing system.
