the revision for the paper "Isolation and screening of marine microalgae from Kendari waters..." 6 Yahoo/Sent ☆

Dear Dr. Indrayani,

Here you have the revision for the manuscript. We really appreciated the way the study was conducted and then presented. But, there are still few problems to be solved. I also did a huge work in editing both the text and the references list. In text, you had many places with more than one space between two words/sentences. For example, you had "add few lines..." instead "add few lines". The references (both the list and the quotations in text) needed to be edoted according to the journal format. And I did it, but, as I said, it was a lot of work, consuming much precious time.

So, work only in attached document, address all the comments and use a bright color to highlight all the changes you will do in text.

Regarding the publication fee of 200 USD + bank taxes, try to pay it during this week, by using only one of the variants below. After the payment, kindly send me a scan copy of the bank document. Thank you very much!

Sincerely yours,
Claudiu Gavrioloae, PhD
editor-in-chief AACL Bioflux journal

Dear Dr. Claudiu Gavrioloaie,

I just realised that I need to changed the project title and the contract no of the research project in the acknowledgment.

Currently it is written "The authors wish to acknowledge the financial support provided by the Ministry of Research and Higher Education of Republic of Indonesia through the Project of Applied Product Research 2017 (Contract no. 581/UN29.20/PPM/2017) entitled Isolation and Screening of Local Species Marine Microalgae Potential for Mass Cultivation in Hypersaline Medium for Biodiesel Feedstock.

It should be changed to " The authors wish to acknowledge the financial support provided by the Ministry of Research and Higher Education of Republic of Indonesia through the Project of National Strategic Research 2018 (Contract no. 473/UN29.20/PPM/2018) entitled Isolation and Screening of Local Species Marine Microalgae Potential for Mass Cultivation in Hypersaline Medium for Biodiesel Feedstock.

I am sorry for the confusion.

Best Regards, Indrayani
