Dear Author;

We are pleased to announce that your article is going to be published in the further edition. At this stage, there are two aspects required from you:

- 1) You should make sure you do proofreading effectively in order to produce a quality publication in JPIL. JPIL as a Scopus Q2-indexed journal is required to standardize English for all articles thus it has international standards before articles are accepted. The editor will cancel the approval even though the article has been reviewed if the English language of the article does not meet the JPIL quality standard. The authors should make sure to do proofreading at International English language institutions, not from individuals. When the proofreading is done please send us the article that has been proofread and the official letter or certificate from the proofread institution.
