Dear Dr. Rahmat Syam,

Thank you for your manuscript submission. The manuscript has been assigned manuscript number, IJCS\_2010\_12\_29c, of title [Determining the Dry Parameter of Fingerprint Image Using Clarity Score and Ridge-Valley Thickness Ratio].

And it will be sent to our reviewer in the related field. During the reviewing process, if the reviewer decides that the manuscript should be accepted with major revision or rejected, we will usually arrange another reviewer for reviewing the manuscript to check if the reviewing results are consistent.

We will contact you again once we have received the reviews. The average acceptance rate of the regular research papers in our journal is slightly less than 12%. This reviewing process is to ensure the quality of the accepted papers in our journal, and we are looking forward to your understanding. It is our target that the reviewing period for each submitted manuscript is about three months.

Suppose you have not got the review result by four months, you are welcome to make an enquiry with the manuscript number, IJCS\_2010\_12\_29c.

If you have any question, you are welcome to tell us.
