Dr. Mayong Maman, M. Pd.:

We have reached a decision regarding your submission to International Journal of Language Education, "Teacher perception and involvement in implementing text-based learning in Indonesia".

- Our decision is that your paper requires revision:
- a. The questions here does not match with the findings. Suggestions: the question may change to : what are the teachers' perceptions on? And how does teachers' involvement in TBL....? or you need to change the findings to fit with the research questions!
 - b. the references need to be update. Can you update the references in the last five years? Some of the references are needed to be update
 - c. Methodology: you need clear explanation of research design, data analysis procedures and data collection procedures
 - d. It needs to describe what the percentage data means, not repeating the information from the table.
 - e. Add declaration of authors' interest
 - f. Add funding acknowledgement for this research
